# Introduction

Gaming machines can be found in thousands of locations globally, from casinos to cruise boats, in clubs and local bars, racing venues, amusement parlors, and even in corner stores or cafes.

This 2012 World Count of Gaming Machines provides a snapshot of the global gaming machine industry through an estimate of the number of gaming machines legitimately operating worldwide.

The Gaming Technologies Association (GTA) is the representative body for Australian gaming technology producers. GTA supports the industry through policy leadership and member support to ensure a sustainable industry.

GTA has commissioned the World Count of Gaming Machines since 1999. This document has illustrated the evolving nature of the industry both in Australia and in other countries, and has provided a measure of where Australia is positioned in relation to other regulated countries throughout the world.

## Method

Data for this report was sourced from regulatory bodies, government sources, private company research, gaming industry bodies, and directly from locations where machines are installed. The data was verified across several authorities wherever available.

The machines that are represented in this report are those that are legally installed. Where illegal machines exist, or where there is no regulation, the count is only based on the numbers of machines that could be verified.

Every effort has been made to provide reliable data in a [timely](#) manner.

# Definition of a Gaming Machine

For the purpose of this report we have taken the definition of a gaming machine as defined by the New South Wales Government in the Gaming Machines Act 2001. This defines a gaming machine as a device that is designed for:

*I. The playing of a game of chance or a game that is partly chance and partly a game requiring skill, and*

*II. The paying out of money or tokens or for registering a right to an amount of money or money's worth to be paid, and includes any subsidiary equipment.*

The above definition covers many differing machines that fall into various categories or classes around the world. To give a better understanding of the machines that are installed worldwide, where available, we have attempted to provide a breakdown of Slot machines, Video Lottery Terminals, Video Gaming Machines, Pachinko and Pachislot machines. Our description for each of the classes of machines can be seen below. We do not assume our definitions to be technically accurate under all gaming jurisdictions, but aim to provide an outline of the general classification understood by many of our sources.

## Slot Machines

The basic game of a slot machine requires that a minimum of three reels be put in motion with the result being determined by the combination of objects displayed when the reels come to a stop. In general, should the objects match the player wins. The winning amount may vary depending on the ranking of the particular object pictured compared to the other objects on the reel.

Modern slot machines use computer generated images, rather than mechanical reels, however the principle of the game is the same.

## Video Lottery Terminals and Video Gaming Machines

Video lottery terminals (VLTs) and Video Gaming Machines (VGMs) provide multi-game platforms that often offer slot games as part of their repertoire. Other games may include video poker, video blackjack, video bingo, video lotto etc.

In some jurisdictions VLTs operate on a networked system rather than by individual machine. This can allow a payout to be larger than if the machine were operating on its own.

## Amusements with Payouts

In the United Kingdom, Italy, Germany, the Czech Republic and other European jurisdictions, many gaming machines can be considered to be amusements with prizes (AWP), due to the relatively small amount that they pay out. In some jurisdictions these AWP machines fall outside of gambling legislation so are not regulated by a governing body. They can be found in amusement parlors, bars and restaurants, and other locations around the country. Where figures are available these machines have been included in the count as they fall under our definition of Gaming Machines.

## Pachinko and Pachislot

Pachinko and Pachislot are gaming machines found in Japan.

Pachinko is similar to a vertical pinball game where the ball cascades down through various pins and into certain locations that can result in more balls being released. The more balls that are obtained the larger the value of the prize.

A Pachislot game is similar to a slot machine game however the player can also press buttons to stop the reels from spinning.

Gambling is illegal in Japan however both Pachinko and Pachislot are not considered gambling devices as the players can only win tokens or balls to be exchanged for merchandise. These machines have been included in the world count however as the winning tokens or balls are exchanged for merchandise at the parlor and then in turn for cash from the businesses that operate nearby.

# Summary of findings

The 2012 estimate of the number of gaming machines installed worldwide is 7,495,773.

Australia is estimated to have 197,892 machines installed which gives it 2.64% of the world's legally installed machines.

Table A shows the top ten countries by total number of gaming machines. Japan, which has the highest number of machines, does not allow gambling. Machines in Japan do not pay money as prizes (see description of Pachinko and Pachislot on page 5), however it is known that prizes are exchanged for money indirectly hence the inclusion of these machine numbers in this report.

**Table A: Top 10 number of machines by country**

| Rank | 2,012                    | Number of Machines |
|------|--------------------------|--------------------|
| 1    | Japan                    | 4,582,784          |
| 2    | United States of America | 849,859            |
| 3    | Italy                    | 408,251            |
| 4    | Germany                  | 245,000            |
| 5    | Australia                | 197,892            |
| 6    | Spain                    | 190,000            |
| 7    | United Kingdom           | 165,516            |
| 8    | Canada                   | 94,154             |
| 9    | Mexico                   | 90,000             |
| 10   | Peru                     | 70,000             |

Table B shows the top 10 jurisdictions.

**Table B: Top 10 number of machines by jurisdiction**

| Rank | 2012 by Jurisdiction | Number of Machines |
|------|----------------------|--------------------|
| 1    | Japan                | 4,582,784          |
| 2    | Italy                | 408,251            |
| 3    | Germany              | 245,000            |
| 4    | Spain                | 190,000            |
| 5    | Nevada, USA          | 184,365            |
| 6    | United Kingdom       | 165,516            |
| 7    | NSW, Australia       | 95,609             |
| 8    | Mexico               | 90,000             |
| 9    | Peru                 | 70,000             |
| 10   | California, USA      | 69,024             |

In 2012 Australia moved to 5th ranking for total machine numbers (from 7th in 2011), due to the decrease in machines in both Spain and the United Kingdom. Table C illustrates how the country rankings have changed since 2002.

**Table C: Top 10 country rankings by year**

| 2012             | 2011             | 2010 *           | 2008 *           | 2006 *           | 2004 *           | 2002 *           |

\* From figures from World Count of Gaming Machines 2010, 2008, 2006, 2004, 2002 by TNS Global

The total installed base by geographical region can be seen in the following chart.

The 2012 population has been sourced and compared to the number of gaming machines per country. The ratio of persons to the number of gaming machines per country has been based on the total population. No consideration has been given to the population of legal gaming age, only the population of the country or state as a whole. The top ten countries based on number of persons per machine can be seen in Table E and the top ten jurisdictions in Table F.

**Table E: Top 10 number of machines per capita by country**

| Country                                    | Person per Machine |
|--------------------------------------------|--------------------|

| Gibraltar (UK)                             | 65                 |
| Curacao                                    | 66                 |

A number of cruise lines provide casinos and/or gaming aboard their vessels. The ratio of gaming machines to maximum passengers is relatively high. A summary of the top ten by Passengers to EGM (based on the vessel at maximum capacity), can be seen in Table G, and a full break down per vessel can be seen in Appendix C.

**Table G: Top 10 passengers to gaming machines on cruise ships**

| Ship                                                  | Base       | Owner                               | EGMs | Capacity | PAX/EGM |
